

We are committed to Minnesota through our investment in a state-of-the-art biologics manufacturing facility in Brooklyn Park and BioLife plasma donation centers located across the state. Takeda is a major contributor to the state's economy by providing highly skilled manufacturing jobs, workforce development and training opportunities and delivering critical treatments to patients worldwide.

BROOKLYN PARK MANUFACTURING SITE

Our Minnesota manufacturing facility in Brooklyn Park serves as a biologics center of excellence. The facility produces medicines for patients living with gastrointestinal diseases and cancers and has capabilities to support the study and development of future biologic treatments. Our 32-acre campus consists of a manufacturing building with 92 cleanrooms, two laboratories, a warehouse with ambient, cold and freezer storage, utilities production and office space. We also actively collaborate with the Minnesota Department of Employment and Economic Development (DEED) and many key institutions and stakeholders to ensure a diverse and talented workforce.

We received the Governor's International Trade Award in 2021 for showing exceptional progress and success in exports to foreign markets and foreign direct investment.

SEVEN BIOLIFE PLASMA DONATION CENTERS

BioLife Plasma Services, part of Takeda, is a trusted leader in the collection of high-quality plasma. Plasma is required to produce life-changing and life-sustaining medicines for hundreds of thousands of people with rare and serious health conditions and in critical-care settings. Donations from more than 270 BioLife centers in the United States and Europe are essential to Takeda developing more than 20 approved brands of medicine made from plasma.

Community Partners

Takeda has a long history of supporting nonprofit organizations through corporate giving, employee volunteerism and employee giving. Building on our global corporate social responsibility (CSR) program, the U.S. Growing Communities program lets us engage our employees and make meaningful contributions to support the communities where we live and work in the U.S., with the goal of establishing deep, impactful relationships with our community partners.
